

The mission of Centro Jovellanos is to implement, develop and design comprehensive rescue and maritime safety training systems that are high quality, highly specialised, certified, innovative, and sustainable to ensure the most remarkable levels of professional training.

Train, provide, reduce, innovate and guarantee are the five key goals of the Jovellanos Centre, which is the training centre of the Spanish Maritime Search and Rescue Agency, a public entity dependent on the Ministry of Transport, Mobility and Urban Affairs.

TRAIN: Understand the needs of professionals and propose efficient solutions to act in emergencies.

PROVIDE: The necessary knowledge to implement tasks successfully at the workplace.

REDUCE: Reduce fatalities and damage to the environment through training, thus avoiding risks and accidents.

INNOVATE: Develop comprehensive virtual reality training methods that improve knowledge.

ENSURE: The implementation of our quality system when designing and developing our training activities.

COURSE

TRAINING COURSE FOR INSTRUCTORS BASED ON THE IMO MODEL COURSE 6.09 – ONLINE MODE

TARGET GROUP

This course is designed for persons who hold certificates or professional qualifications in the merchant navy, such as a captain, second mate, first mate or master, chief engineer, first assistant engineer, second assistant engineer, first or second class radio-electronic officer, or a non-maritime university degree that specifically certifies the qualifications to teach certain modules or courses related to the STCW Convention and Training Code.

TRAINING

Purpose: At the end of the course, trainees will be in a position to deliver competency-based STCW (Standards of Training, Certification and Watchkeeping) Convention and Code related courses effectively using appropriate teaching methods and resources.

Methodology: Active methodologies based on student activities will be implemented through the Virtual Campus and the didactic resources available in it, as well as synchronous communication platforms, addressing the contents and practical activities through a blended modality of tutored training, taking into account the competency requirements established in the IMO model course 6.09..

DURATION

The course consists of 60 teaching hours delivered over 10 weeks.

PROGRAMME

- Overview of the STCW Convention and Code. Competency-based training requirements.
- Effective planning of the learning environment.
- Teaching aids.
- Methodology: effective use of teaching strategies and techniques.
- Planning a training session.
- Training assessment.
- Designing a course.

VIRTUAL CAMPUS

The Jovellanos Centre's virtual environment provides access from anywhere to a useful and dynamic learning experience, making it a personalised training process based on a pre-established progress sequence.
