

Salvamento Marítimo

The mission of Centro Jovellanos is to implement, develop and design comprehensive rescue and maritime safety training systems that are high quality, highly specialised, certified, innovative, and sustainable to ensure the most remarkable levels of professional training.

Train, provide, reduce, innovate and guarantee are the five key goals of the Jovellanos Centre, which is the training centre of the Spanish Maritime Search and Rescue Agency, a public entity dependent on the Ministry of Transport, Mobility and Urban Affairs.

- TRAIN: Understand the needs of professionals and propose efficient solutions to act in emergencies.
- PROVIDE: The necessary knowledge to implement tasks successfully at the workplace.
- REDUCE: Reduce fatalities and damage to the environment through training, thus avoiding risks and accidents.
- INNOVATE: Develop comprehensive virtual reality training methods that improve knowledge.
- ENSURE: The implementation of our quality system when designing and developing our training activities.

COURSE CHEMICAL EMERGENCIES

TARGET GROUP

This course has been designed for professionals who, not having received prior training, may find themselves involved in emergencies involving dangerous goods.

TRAINING

Objective: It provides trainees with basic knowledge on emergencies involving dangerous goods, and on the relevant equipment used and its limitations.

DURATION

The course consists of 21 hours and it's delivered over a period of 3 days.

PROGRAMME

- Dangerous goods.
- Identification.
- Hazards.
- PPE.
- Emergency teams.
- Practical training:**
- Use and maintenance of chemical protective suits (gastight and Splash).
- Handling equipment in chemical emergencies.
- Intervention in a chemical emergency with spill from a tanker truck.
- Implementation of an organisational model for all operations.
- Practical training will take place at the Jovellanos Centre's training grounds, using the relevant emergency equipment.
