

The mission of Centro Jovellanos is to implement, develop and design comprehensive rescue and maritime safety training systems that are high quality, highly specialised, certified, innovative, and sustainable to ensure the most remarkable levels of professional training.

Train, provide, reduce, innovate and guarantee are the five key goals of the Jovellanos Centre, which is the training centre of the Spanish Maritime Search and Rescue Agency, a public entity dependent on the Ministry of Transport, Mobility and Urban Affairs.

- TRAIN: Understand the needs of professionals and propose efficient solutions to act in emergencies.
- PROVIDE: The necessary knowledge to implement tasks successfully at the workplace.
- REDUCE: Reduce fatalities and damage to the environment through training, thus avoiding risks and accidents.
- INNOVATE: Develop comprehensive virtual reality training methods that improve knowledge.
- ENSURE: The implementation of our quality system when designing and developing our training activities.

COURSE FIRE-FIGHTING INTERVENTIONS

TARGET GROUP

This course has been designed for people who aspire to work in public or private fire brigades but who do not have prior knowledge in fire-fighting; and, in general, for first and second emergency team members set out in emergency plans.

TRAINING

Objective: The training is eminently practical. At the end of the course, trainees will be capable of handling the various types of portable extinguishers, 25, 45 and 70 Ø hoses, various types of nozzles, wall-mounted fire hoses, and using self-contained breathing apparatuses. In addition, they will be trained in how to act in the event of fires caused by solid, liquid and gaseous fuels, how to rescue victims in smoke-filled areas, fires in warehouses, etc. They will also learn to recognize and provide initial response in the case of emergencies caused by the spillage of hazardous substances in general.

DURATION

The course consists of 21 certified hours, it's delivered over a period of 3 days.

PROGRAMME

- Fire. General concepts.
- Indoor fighting-fighting techniques and the use of SCBA
- Fire protection systems.
- Basic personal protective equipment.
- Extinguishing liquid and gas fuels.
- Introduction to operations involving dangerous goods.

Practical training:

- Portable fire extinguishers.
- Water hoses.
- Personal protective equipment for fire-fighting.
- Boiled Liquid Expanded Vapor Explosion (BLEVE)
- Haz-Mat Emergency management awareness.
