

The mission of Centro Jovellanos is to implement, develop and design comprehensive rescue and maritime safety training systems that are high quality, highly specialised, certified, innovative, and sustainable to ensure the most remarkable levels of professional training.

Train, provide, reduce, innovate and guarantee are the five key goals of the Jovellanos Centre, which is the training centre of the Spanish Maritime Search and Rescue Agency, a public entity dependent on the Ministry of Transport, Mobility and Urban Affairs.

- TRAIN: Understand the needs of professionals and propose efficient solutions to act in emergencies.
- PROVIDE: The necessary knowledge to implement tasks successfully at the workplace.
- REDUCE: Reduce fatalities and damage to the environment through training, thus avoiding risks and accidents.
- INNOVATE: Develop comprehensive virtual reality training methods that improve knowledge.
- ENSURE: The implementation of our quality system when designing and developing our training activities.

## COURSE BASIC OFFSHORE SAFETY INDUCTION AND EMERGENCY TRAINING BOSIET OPITO STANDARD 5700

### TARGET GROUP

This course has been designed for staff working on offshore oil and gas facilities to familiarize them with safety issues and how to respond in the event of an emergency.

**Requirement:** All trainees taking this course must have the appropriate psychological and physical conditions to complete the training.

Trainees must provide, prior to the beginning of the course, an official medical certificate in force (e.g. certificate of fitness, professional diving certificate, private official medical certificate, company medical certificate).

### TRAINING

**Objective:** Trainees shall be introduced to the specific and relevant safety aspects related to offshore facilities, providing them with the knowledge and skills required in the event of an emergency, and during transfers to and from offshore facilities by helicopter.

The course includes a theoretical part, demonstrations by the instructors, and practical exercises that trainees must perform in order to achieve the goals set out.

All the practical training will be performed in a safe and controlled environment supervised by qualified instructors.

### DURATION

The course takes 20 hours and 25 minutes and it will be delivered over a period of three days.

### PROGRAMME

- Module 1: Safety induction
- Module 2: Abandoning a helicopter.
- Module 3: Survival and first aid.
- Module 4: Fire-fighting and self-rescue

### CERTIFICATE

OPITO (Offshore Petroleum Industry Training Organisation) Registry. Valid for 4 years.
